League organizer? Bracket maker? The winner is an app for you! Terms of Use: Policy: 19. There's only one problem with the Pro/Rel system, and that's when I get to the end of the season tournament with several leagues designed for pro/rel, the app asks where I want to send promoted or humiliated teams, but then it doesn't do it. There is no way (that I can't at least) reset the tournament into another season and actually let the app promote and relegate the teams it asked to promote and relegate. The idea that it ASKS which leagues I want to send teams but then there is no way to actually do it and reset the tournament is just so weird to me, so maybe I'm just missing it somewhere? I've searched the entire app, the entire app website and the App Store description, but I can't find anything about it. If this is already an option in any way, it would be nice if it would be easier to find, or if it's not an option at all, then obviously it would be nice to have that lol. Other than that it's beautifully designed, the logos are really good looking, and the league's system setup is the most detailed of any tournament app I've ever used. Hi, many thanks for using the Winner - Tournament Maker app 🙌👍. The campaign and relegation system currently runs between stages of the same tournament, such as qualifying from the league stage of the playoff stage of the same tournament. However, we will certainly extend the feature to support promotion and relegation between partitions in upcoming versions of the app. If you have other ideas for improvement, let us know at: il.talent.apps@gmail.com the Feedback button in the side menu of the app. It seems that the level of teams doesn't really make a difference when it comes to randomized results in American Football. A level 15 team should not be beating the level of 95 team in a row. There is almost no kind of scoring as well. It seems like every game is decided by two touchdowns is never a blowout when a high-level team plays a low-key team. In addition to tournaments I would like to see the opportunity for consolation bracket Thanks for the feedback and using the Winner – Tournament Maker app 🙌👍. We're looking into the question of the random results of American football. This is the best tournament creator app I have found far from my only problem is the amount of ads I come across using the app, and I wish there was an optional feature to pay to remove ads without having to go pro, so I can still support developers of this app. Hi, many thanks for using the Winner - Tournament Manager app 🙌👍🙌👍. We appreciate your support! In the app's side menu, you have the free option to watch one video and remove ads for the rest of the session. If you have any other questions, you can contact us by using the il.talent.apps@gmail.com feedback button in the app's side menu.
